## Introduction

---

eGolfScore Java - Easier and faster than a pencil and scorecard!

Now you can use your cell phone as an electronic scorecard!

No cables. No hassles. Using eGolfScore Java, you can score your round on the course, and when you are done, upload it to the eGolfScore web site with just the touch of a button.

No connections to your PC necessary. It's Wireless. It's the Future. It's Now!

Use RoundCast™ to broadcast your score to your family and friends via the web! You can have anyone follow your round in real time. When you start scoring your round, your pre-defined Viewers List will be notified and given a link on the web at which they can follow your round!

Features:

- Track scores, putts, fairways, and more
- Score your own round, or up to a foursome
- Ticker stats provide snapshots of your game
- View your current round stats and scorecard
- Simple and easy to use interface
- Upload your score directly to the web, no wires required
- Access to your game profile and reporting

Your Average Round Score is 75.7	
Scorecard	
#1: Par 4-389	- 5
#2: Par 3-177	- 0
#3: Par 4-326	- 0
#4: Par 4-372	- 0
#5: Par 3-167	- 0

## Setup

---

### Requirements

In order to use eGolfScore Java you must have a Java and Web enabled device with network data access from your Service Provider.

Minimum MIDP 1.0 device.

Storage space or data space required on the handset, once the application is installed: 95 KB

Storage space or program space required on the handset, once the application is installed: 98 KB

### Prior to using eGolfScore Java

- You must have an active eGolfScore account.

If you do not already have an eGolfScore account, you can sign up for a Free Trial account by selecting Free Trial from the main menu (see Free Trial).

Or you can go to [www.eGolfScore.com](http://www.eGolfScore.com) and select join from the left menu.

After using your Free Trial round, you must purchase a Premium Membership or individual rounds in order to score additional rounds.

- You can setup Favorite Courses by going to [www.eGolfScore.com](http://www.eGolfScore.com) and logging in. Then, go to your My Courses section, select Favorite Courses, and setup your favorite courses in your personal Course List Profile. Doing this allow for quicker course selection in eGolfScore Java.
- To access eGolfScore Wireless on your mobile cell phone, install the Java application.

### Installation Instructions

#### Java Phones

eGolfScore Wireless for Java can be used on most Java phones.

Carrier	Supported
Sprint	Yes
Cingular	Yes
T-Mobile	Yes
AT&T	Yes
Rogers	Yes
Nextel	Currently not supported
Verizon	Does not support Java

To install the application on your phone, go to the following address on the phone's web browser and follow the on screen instructions

<http://www.egolfscore.com/wireless/java/egolfscore.jad>

## Java Blackberry Phones

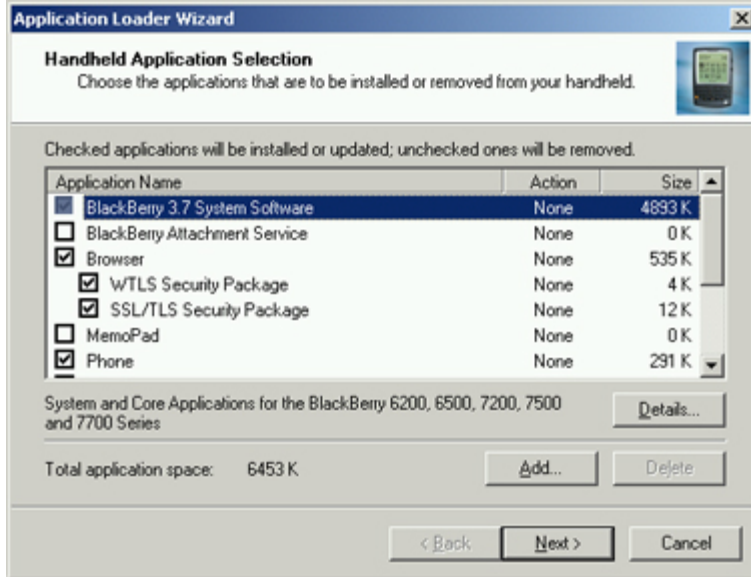

eGolfScore Wireless for Java can be used on most Blackberry devices. Each carrier that offers Blackberry devices requires a specific version of the application.

Carrier	Supported
Sprint	Does not offer Blackberry
Cingular	Yes
T-Mobile	Yes
AT&T	Yes
Nextel	Yes
Verizon	No

1. **Download the appropriate application for your device at <http://www.eGolfScore.com/MoreInfoWireless.asp>, and follow the installation instructions below.**
2. **Download the installation files for your carrier.**
3. **Unzip the four files into a folder on your local computer.**
4. **Connect your device to your local computer, and launch the Blackberry Desktop Manager software**

5. **Double click on the Application Loader icon.**
6. **Select Next on the introduction screen.**
7. **On the Handheld Application Selector Screen, select the Add button, and then browse to the location of the download files. Select the eGolfScore.alx file and select the Open button. Select the Next button to continue.**

8. **Select the Finish button to complete the installation.**
9. **On the Installation Successful Screen, select the Close button.**

The first time the application is launched on the Blackberry device, the following screen will be displayed:

Scroll down to the bottom of the screen and use the space bar to check the [www.egolfscore.com](http://www.egolfscore.com) connection. Then scroll to the top of the screen and select the Allow this connection option.

### Soft Key (Left and Right)

When this document refers to the soft key for mobile phones, use the buttons underneath the screen to select the options on the left or right bottom of the screen. (see example, Figure 1)

### Phone Text Entry

Since text entry on mobile phones can vary widely from phone to phone, please see your user manual for specifics of entering text

Figure 1

## Main Menu

The main menu presents the main functions of the application;

### Options

Login	This option provides access to your;  Electronic Scorecard Profile Reporting Course Information
Free Trial	This option allows you to create a FREE eGolfScore Basic Membership, which allows you to have 1 free trial round.
Services	This option gives a brief description of the eGolfScore Java product.
Leaderboards	eGolfScore provides real time wireless scoring to corporate and charity golf events. For more information, visit <a href="http://www.eGolfScore.com/eSP">www.eGolfScore.com/eSP</a>  This option allows you to view leaderboards from recent and current golf outings that have used eGolfScore's Event Scoring Program.
About	This option displays the version of the current eGolfScore Java application.

Main Menu Screen

Instruction

To select a menu option, use the arrow buttons to scroll down to highlight the desired option, then press the **Go** soft key.

To leave the application, select the **Exit** soft key.

## Login

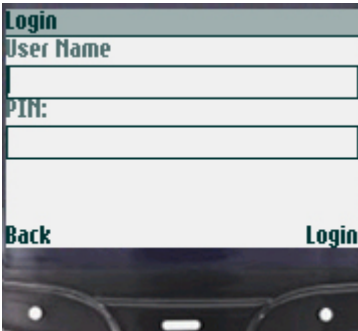

If you already have an eGolfScore account setup, this option allows you to access your account information, analysis tools, and electronic scorecard.

When the Login menu option is selected, you are prompted for your Login Name and PIN. This information was setup when you created your eGolfScore account.

After the first time you login to your account, the program will remember your Login Name and PIN, and automatically use them to access your account.

If you enter an invalid Login Name or PIN, an error message will appear, and you will be given the option to retry.

The PIN entry will accept only 4 digit numbers to correspond to the requirements for a PIN setup in eGolfScore.

Screen	Instructions
	<p>Enter your User Name.</p> <p>Enter your PIN, then select the <b>Login</b> soft key.</p>

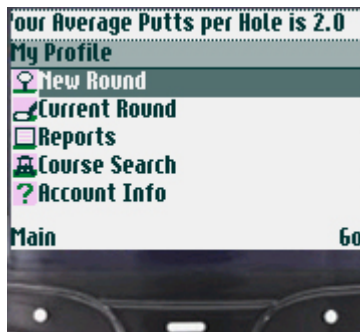

## My Profile Menu

After Logging In, the My Profile Menu provides access to the main functions for your personal account.

### Options

New Round	This option allows you to begin a new electronic scorecard for an individual, foursome or total round.
Current Round	This option allows access a scorecard for a round that is already in progress.
Reports	This option allows you to view your profile, estimated handicap, and game analysis reports.
Course Search	This option allows you to view course information from a searchable course database.
Account Info	This option allows you to access your eGolfScore account information, including RoundCast emails, and your account status.

### My Profile Menu

To select a menu option, use the arrow buttons to scroll down to highlight the desired option, then press the **Go** soft key.

Press the **Main** soft key to return to the Main Menu Screen.

## Reports

For Premium Members, you can view your profile, estimated handicap, and game analysis on your phone.

### Instructions

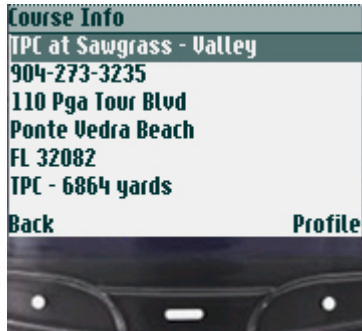

To select a report use the arrow buttons to scroll down to highlight the desired option, then press the **Go** soft key.

### Course Search

Use this option to lookup course information and phone numbers.

#### Instructions

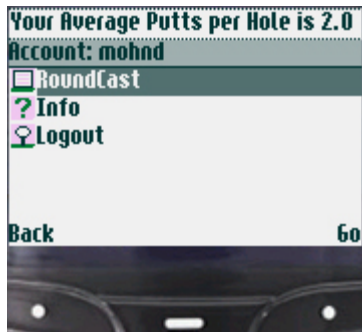

After performing a search and selecting the course, you can view the course address, contact and tee information.

### Account Info

Use this option to lookup your account status, reset your login, and maintain your RoundCast emails.

#### Instructions

To select an option use the arrow buttons to scroll down to highlight the desired option, then press the **Go** soft key.

**RoundCast®** - Use this option to modify your RoundCast® settings and email recipient list.

**Info** – Use this option to view your account information

**Logout** – Use this option to logout of your current account, and to login with a new Login Name.

## Electronic Scorecard: New Round / Current Round

To score a round select **New Round**, or to continue scoring a round already in progress, select **Current Round**.

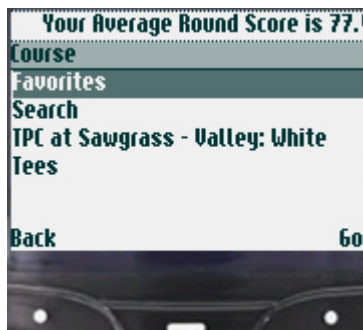

- If this is the first time you are scoring an individual round, only the New Round option will be shown
- By selecting a New Round, you will be erasing the previously stored round information. As such, make sure you have performed the **Save to Web** function for the Current round.

### Course (New Round)

After selecting New Round, the Course screen is displayed. You are prompted here to select your desired course from your **Favorites** list as setup on the web site, or to do a **Course** search on the complete course database.

The last course which was used to score a round will also be listed. This course is stored in the **Memory**, of your phone and can be selected as well. This course can be used when you have no coverage on a course, by pre-loading the course on your device before you arrive at the course.

#### Instructions

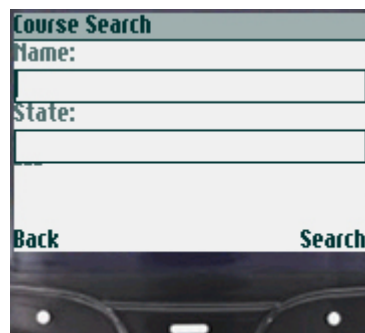

To select an option use the arrow buttons to scroll down to highlight the desired option, then press the **Go** soft key.

### Course Search

If you choose Search for a course, the Course Search screen is displayed. You are prompted here enter the partial name of the course and the state to search on.

- If your course search returns more than 10 courses, you will be asked to enter more course information for your search.
- If your course search returns no courses, shorten the partial name search, or remove the state information.

#### Instructions

Enter the partial course **Name**, then enter a **State** or **ZIP Code**, if desired.

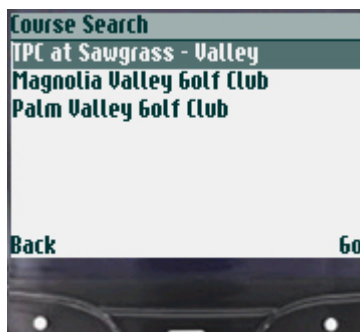

Press the **Search** soft key to perform the course search.

### Course Selection (from Course Search or Favorite Courses)

After the Search process is run, a Course Listing screen is displayed. You are prompted here to select the desired course.

- If your course search returns more than 10 courses, you will be asked to enter more course information for your search.
- If your course search returns no courses, shorten the partial name search, or remove the state information.

#### Instructions

To select a course use the arrow buttons to scroll down to highlight the desired option, then press the **Go** soft key.

### Tee Selection

After the Course List selection, the Tee Selection screen is displayed. You are prompted here to select your desired tee.

#### Instructions

To select a tee, use the arrow buttons to scroll down to highlight the desired tee, then press the **Go** soft key.

### Round Type

After you select a tee, you are asked to specify the type of round you are going to score;

Individual	Enter your individual score hole by hole, optionally tracking putts, fairways, bunkers and penalties.
Foursome	Enter scores for up to 4 players in the foursome hole by hole.
Total Only	Enter your individual score total only.

#### USAGE NOTE:

- If you are a Premium Member or have the appropriate rounds in your inventory, after selecting a round type you will receive a confirmation screen.
- If this is your Trial Round, after selecting a round type you will receive a confirmation screen.
- If you are not a Premium Member, and have already used your trial round, and you do not have the appropriate rounds in inventory, you will be asked to purchase additional rounds or a Premium Membership. If your Carrier supports Pay Per Use, you will be given an interface on the phone for making your purchase. If your Carrier does not support Pay Per Use, you will need to visit our web site or call us at 877 SCORE 18 to make your purchase.

#### Instructions

To select the type of round to score, use the arrow buttons to scroll down to highlight the desired round type, then press the **Go** soft key.

#### Round Statistics Tracking

After you select the round type, the Track Info screen is displayed for foursome and individual rounds. You are prompted here to select the information you want to track for the round.

- For Individual Rounds, you can track Putts, Fairways Hit, Bunkers, Penalties, and turn on or off the RoundCast™ functionality.
- For Foursome Rounds, you can only turn on or off the RoundCast functionality.

#### Instructions

Select the statistics to track for the round by highlighting the option and pressing the enter key on your phone. After you have marked your selections, press the **Go** soft key.

#### Total Score Round Screen

You will enter the score information for the round. You are prompted here to enter the total score and the number of holes for the round.

Instructions

Select the number of holes played from the listing.

Enter the total score for the round.

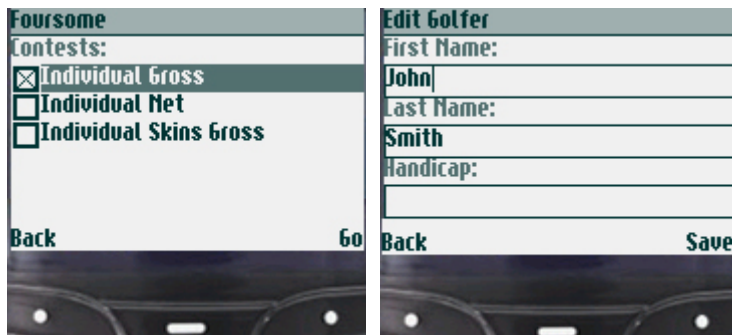

Select the **Save** soft key.

**Foursome Score Round Setup Screens**

After selecting the Tracking Information, you must select the leaderboard contests and players for your foursome round. You must select at least one contest. For the second contest, you can select None if desired. To enter less than 4 golfers, leave the name and handicap blank to not add a golfer.

To select the desired option, see the detailed instructions for your device below:

Instructions

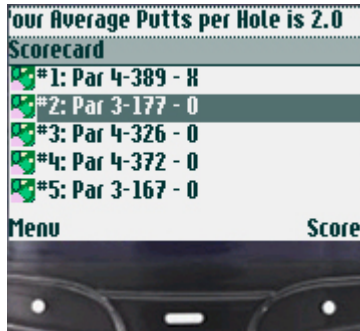

To select the contests, use the arrow buttons to scroll down to highlight the contest. Then press the phone's Enter key. After selecting the contests press the **Go** soft key.

For each golfer in the foursome, enter the name and handicap (if net contest), then press the **Save** soft key.

## Foursome Scorecard Screen

After entering the contest and player information Information, the Main Score Round screen is displayed. Now that the round is setup, this will be the main screen for scoring your round.

### Instructions

To select the hole to score, press the relative number key to the left of the hole number.

You may also use the arrow buttons to scroll down to highlight the desired tee, then press the **Score** soft key.

## Score Entry

After you select the hole to score, you will enter the score information for that hole. You are prompted here to enter the score information for the hole.

### Instructions

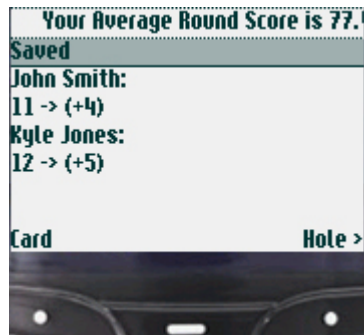

Enter the score number for the specified player. Repeat this process for all players in the foursome.

Press the **Save** soft key.

## Score Summary

After the score entry is complete, you will see a score summary screen.

Instructions

To enter the next score directly, press the **Hole >** soft key.

To view the scorecard which gives access to the menu, press the **Card** soft key.

**Score Menu**

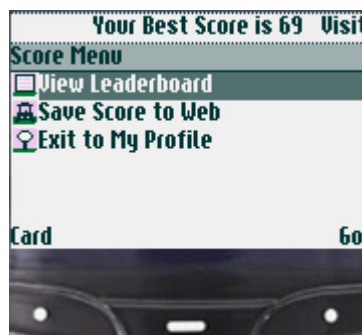

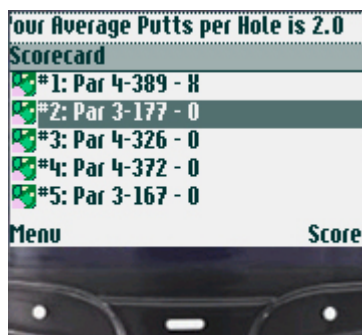

While you are scoring the round, you can access the score menu to view your scorecard, round stats, and to perform other operations.

**Options**

View Hole #X	If there is an image of the currently selected hole, this option will display the hole image.
View Leaderboard	Displays the foursome leaderboard for a specific contest.
Save Round to Web	This option will save the score of the first player in the round score entry screen to your personal web account.
Return to Profile Menu	Returns to the eGolfScore Home Page

WML Phone

Instructions

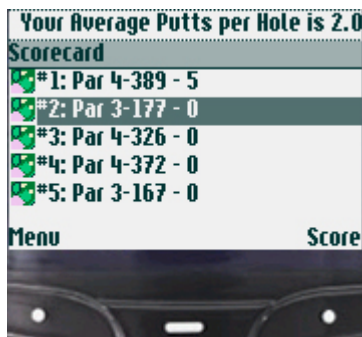

To access the menu, press the **Menu** soft key on the scorecard screen.

To select an option, use the arrow buttons to scroll down to highlight the desired option, then press the **Go** soft key.

## Individual Scorecard Screen

After selecting the Tracking Information, the Main Score Round screen is displayed. Now that the round is setup, this will be the main screen for scoring your round.

### Instructions

To select the hole to score, use the arrow buttons to scroll down to highlight the desired tee, then press the **Score** soft key.

## Score Entry

After you select the hole to score, you will enter the score information for that hole. You are prompted here to enter the score information for the hole.

### Instructions

Enter the score and putts.

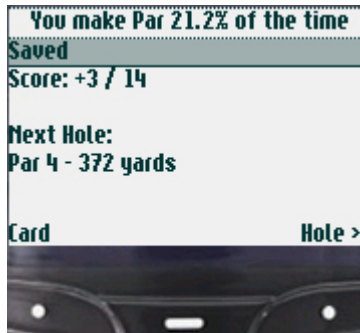

Toggle the Fairway and Bunker information.

Then press the **Save** soft key

### Score Summary

After the score entry is complete, you will see a score summary screen.

#### Instructions

To enter the next score directly, press the **Hole >** soft key.

To view the scorecard which gives access to the menu, press the **Card** soft key.

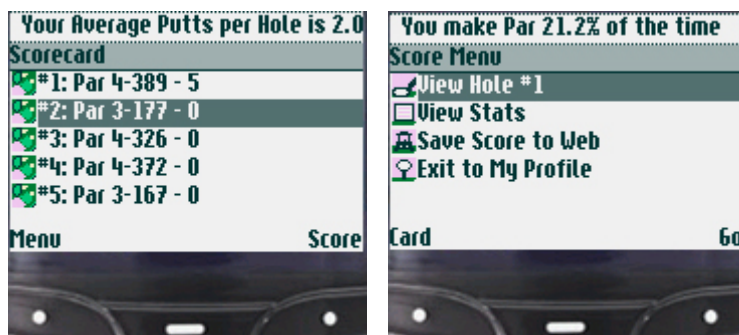

### Score Menu

While you are scoring the round, you can access the score menu to view your scorecard, round stats, and to perform other operations.

#### Options

View Hole #X	If there is an image of the currently selected hole, this option will display the hole image.
View Stats	Displays statistics for you current round, including scoring breakdown, estimated final score, and total putts.
Save Round to Web	Saves your round information to the web. At the end of the round, select this menu item to transfer your score to your personal eGolfScore account.
Exit to My Profile	This option returns you to the My Profile Menu page.

#### Instructions

To access the menu, press the **Menu** soft key.

To select an option, use the arrow buttons to scroll down to highlight the desired option, then press the **Go** soft key.

## Free Trial

---

Free trial allows you to sign up for a trial membership with eGolfScore. After signing up, you will receive an email confirmation with your account information.
